

Benefits

- Helps to protect the LED flexible strip from water and dust
- Helps to reduce the appearance of individual LED dots

Key Features

- Flush fit for a minimalist look
- Aluminium finish
- Houses all Sensio flexible strips
- Flexible and easy to install
- End caps protrude to fill the gap in furniture when cut with a router for neat finish
- End caps supplied with each profile (2 with the 1m, 4 with the 2.2m)
- Perfect for use under cabinets, inside larders or inside wardrobes
- Streamlined finish

Product overview

The Linia profile is a minimalist solution for seamlessly integrating flexible strip lighting into wooden panels.

Wide enough to house any Sensio flexible strip light, the Linia is a versatile solution that will sit comfortably under cabinets, inside larders or inside wardrobes. The profile is also suitable for installation in kitchens, bedrooms and bathrooms and installation is made quick and simple by the metal barbs located at either side. Simply push the profile into a 19mm recessed channel to achieve a flush fit.
