

### Product overview

The vastly popular Radiant flexible strip has now been upgraded to feature CCT technology, enabling the light source to seamlessly transition between warm and cool white.

The outer body of the strip is made from silicone rubber, which is great for recessing into grooves with a simple push-fit, as well as diffusing each individual diode for a uniform light output.

The LEDs within the silicone body are also mounted sideways, enabling the strip to flex around sweeping corners with ease.

### Mechanical Specification

Product	Dimension (mm) L x W x D	Weight (Grams)	IP Rating
SE1055P0	5000 x 4 x 8	130	65

### Benefits

- Easy to use and install
- Ideal for both under and in cabinet lighting
- LED Technology for long life
- Human centric lighting
- Low energy consumption

### Key Features

- An entirely diffused, bendable, silicone flexible strip light ideal for application across the kitchen or bedroom
- CCT – Enables seamless transition from cool to warm white
- Ideal for a flush, recessed finish with a simple push-fit
- Can be recessed or surface mounted

### Technical Specification

Light Output (lm)	540
CRI	>90
Cut Marks	50mm
Beam Angle	110°
Color Temperature	2700~6000
Cable	2.5m at each end
Operating Temperature	-30°C to + 45°C
